Organic deep-frozen products for a healthy diet

Frozen Vegetables

Why Bio Inside?

The old proverb says... you have either got talent or you haven't. It is something that you are blessed with. It is similar with Bio Inside vegetables. For them too, it all depends on what they inherit, and that is why biodynamic agriculture doesn't begin with planting the seed, but rather with the breeding of one's own seed and propagation materials. Bio Inside farmers breed on domestic varieties that have been handed down to us by our ancestors over the millennia, and this gives rise to new varieties in a natural way.
